

Relay Switch Sensor w/Light Tower Adaptor

Turn devices on or off, including a Light Tower, in response to alerts or conditions detected by Room Alert.

RMA-RLAD-SEN

We've got facilities covered.

Toggle low voltage devices or a Light Tower on or off in response to alarm conditions with the Relay Switch Sensor w/Light Tower Adaptor from AVTECH. Up to four low voltage devices can be individually controlled and activated directly from a Room Alert monitor or in response to an alarm condition. For more information and specifications, please visit AVTECH.com.
